Los archivos históricos del Sistema Archivístico de la Defensa elaborarán, como instrumentos de referencia y descripción, las guías, inventarios, catálogos e índices de sus fondos documentales de acuerdo con la naturaleza de los mismos y las prioridades que fijen los programas de actuación¹.

1 INTRODUCCIÓN

Tras la pérdida de las colonias ultramarinas, los territorios coloniales guineanos toman importancia, regulándose la administración y gobierno de los llamados *territorios españoles del Golfo de Guinea*, que se constituyen con esa denominación desde 1904, dejando de ser competencia del Ministerio de Ultramar, tras la promulgación del Decreto de 25 de abril de 1899, que suprimía ese ministerio. Sus funciones y competencias sobre la colonia se distribuirán entre los Ministerios de Gracia y Justicia, Hacienda, Fomento, Gobernación y Presidencia del Consejo de Ministros, que se encargará de todo lo referente al gobierno y administración de la *colonia de Fernando Poo*, islas Carolinas, Mariana y Palaos. La supresión del ministerio se justificaba por el ahorro en *gastos públicos innecesarios después de perdidos los dominios de Cuba, Puerto Rico y Filipinas*.

El territorio colonial se dividirá en demarcaciones o distritos insulares y continentales, regulándose los órganos coloniales de administración y gobierno bajo la dirección de un Gobernador General que contará con una Junta de Autoridades, como órgano consultivo de apoyo a sus funciones, y un Patronato de Indígenas para los asuntos del personal guineano. La administración metropolitana de la colonia fue competencia a lo largo del tiempo de diferentes Ministerios (Ultramar, Estado, Vicepresidencia o Presidencia de Gobierno).

Hasta 1925, en que aparece una *Dirección General de Marruecos y Colonias*, la administración era competencia de una *Sección Colonial*

¹ RD 2598/1998, de 4 de diciembre. Reglamento de Archivos Militares (artº 44).

dependiente del Ministerio de Estado. En 1931 se organizará la nueva Dirección General de Marruecos y Colonias con una Secretaría, tres Secciones (Marruecos, Colonias e Intervención y Contabilidad) y tres Negociados (Militar, Obras Públicas y Sanidad), haciéndose cargo de los asuntos de los territorios del África Occidental Española (Ifni y Sáhara), Marruecos y Guinea. Esa Dirección General se desdoblará en 1934 en una *Secretaría Técnica* (para los asuntos del protectorado marroquí) y una *Secretaría General de Colonias* (para los asuntos guineanos), volviendo a la planta anterior en 1935, unificando los asuntos en una *Dirección de Marruecos y Colonias*.

La administración franquista realizará modificaciones sobre esa planta, asignando las competencias coloniales a una *Sección de Colonias*, integrada en la Junta Técnica de Estado, que dará paso en 1938 a un *Servicio de Marruecos y Colonias*, que permanece de 1938 a 1939 integrado en Vicepresidencia del Gobierno. Aunque durante un breve período de tiempo, los asuntos coloniales serán competencia del Ministerio de Asuntos Exteriores, desde 1942 se integran en Presidencia de Gobierno, volviendo a cambiar su denominación en 1956 por la de *Dirección General de Plazas y Provincias Africanas*. En 1959 se concede a la colonia el estatuto provincial, creándose dos provincias, Fernando Poo y Río Muni, permaneciendo como tal hasta la independencia de los territorios el 12 de octubre de 1968.

2 EL FONDO DE GUINEA ECUATORIAL EN EL ARCHIVO GENERAL MILITAR DE GUADALAJARA

Tras la independencia de la colonia, se creará en la Dirección General de Plazas y Provincias Africanas una *Comisión Liquidadora de la Zona de Movilización de la Guardia Territorial de la Guinea Ecuatorial*, como órgano liquidador de la misma. En octubre de 1968, el jefe accidental de la Guardia Colonial, se había dirigido al Estado Mayor, solicitando aclaraciones e instrucciones para remitir la documentación de los alistados en el reemplazo de 1968 y solicitar destino de los del reemplazo de 1967, al *haber pasado este cuerpo a depender directamente del Excmo. Sr. Presidente de la República de Guinea Ecuatorial*. La contestación del Estado Mayor en diciembre, aclara el destino de las documentaciones del reemplazo de 1968, y distribuye el control de los reservistas a sus zonas peninsulares de origen, mientras que los reservistas nacidos en Guinea, pasarán a depender de la Zona de Cádiz.

Tras el proceso de independencia, el capitán-jefe de la comisión liquidadora se dirige al Jefe del *Archivo General del Ministerio del Ejército en Guadalajara*, el 18 de agosto de 1969, indicándole que remitirá a ese Archivo la documentación de los reservistas de la extinguida Zona de Movilización de Guinea, en catorce cajones, con un peso de 850 kilogramos. Esa sería la primera documentación que ingresa en el recién creado Archivo General Militar de Guadalajara, completándose los fondos coloniales, con una segunda remesa de documentación remitida desde el Archivo General Militar de Segovia en 1982, y que contenía exclusivamente *Expedientes Reglamentarios de Tropa*

y *Expedientes Personales de Reservistas*, los cuales son objeto de este IDD (instrumento de descripción).

3 LA GUARDIA COLONIAL

Desde 1908 serán sustituidas las fuerzas de Infantería de Marina, presentes en la colonia desde 1869, encargándose de los asuntos de policía y orden público un Cuerpo de *policía indígena*, que se modificará con la creación de un nuevo cuerpo colonial de policía, aduanas y orden público, bajo los principios y régimen de la Guardia Civil, que de 1907 a 1908 mantendrá su denominación como *Guardia Civil de los Territorios Españoles del Golfo de Guinea*. En 1908 modificará su denominación por la de *Guardia Colonial de los Territorios Españoles del Golfo de Guinea*, publicándose su primer Reglamento el 10 de octubre de 1908, el cual se mantendrá en vigor hasta su reforma, mediante Orden de 2 de julio de 1946.

Se organizará territorialmente en Compañías, Secciones o Destacamentos, ubicadas en las cabeceras de las Demarcaciones Territoriales insulares y continentales, formando sus cuadros exclusivamente con mandos de la Guardia Civil, aunque desde 1930 podrán optar a esas plazas los oficiales y suboficiales de otros Cuerpos o Armas del Ejército de Tierra. La tropa, al igual que la oficialidad, serán voluntarios guardias civiles que se trasladarán a la colonia en febrero de 1908, y que se completará más tarde con voluntarios nativos o tropa indígena, personal de reemplazos de los alistamientos coloniales, o con personal europeo que por razones laborales, reside en los territorios coloniales, y que prestará su servicio militar adscritos a la Guardia Colonial, hasta la independencia de la colonia.

4 EL RECLUTAMIENTO COLONIAL

El servicio militar obligatorio, como nuevo sistema de reclutamiento para los ejércitos permanentes, se perfecciona a lo largo del siglo XIX a través de la regularidad en los reclutamientos ordinarios anuales y la creación de los órganos de reclutamiento. Además, el propio desarrollo legislativo y reglamentario del servicio militar, unificará a finales del siglo XIX el sistema de reclutamiento en el territorio peninsular e insular. Primero, serán las provincias de Vizcaya, Guipúzcoa y Álava, que no contribuían a los cupos reclutados hasta 1876, las que se incorporen al sistema, y desde finales de siglo serán las islas Canarias las que también se incorporen regularmente a los cupos provinciales para el reclutamiento. Las posesiones del norte de África y los territorios de Ifni y Sáhara, que más tarde constituirán el África Occidental Española, mantendrán reclutamientos especiales, nutriéndose con personal de reemplazo, voluntarios, cuerpos disciplinarios o movilizándolo en determinadas ocasiones.

Sin embargo, las propias peculiaridades coloniales, en cuanto al clima, distancia o régimen y administración, implica reclutamientos especiales, que se manifiestan también en los propios tipos documentales generados con ese objeto. Tradicionalmente, y por esos motivos, se contabiliza doble abono de tiempo para los servicios coloniales, tanto para las dotaciones de marina como para la Guardia Colonial.

Las primeras regulaciones sobre el reclutamiento colonial, no aparecen hasta la legislación de reclutamiento y reemplazo de 1911/1912, que, aunque deberán llevarse a cabo de manera similar a la península, no cuenta con órganos municipales de alistamiento ni revisión, realizando esas funciones una *Junta de Reclutamiento del Golfo de Guinea*, con sede en Santa Isabel de Fernando Poo, y posteriormente una *Junta de Reclutamiento Delegada de Bata*. Funcionarán, también en Santa Isabel, una *Caja de Recluta* para todo el territorio colonial, lo mismo que una *Zona de Movilización*, con competencias similares a las que realizaban esos órganos de reclutamiento en la península.

Pero el reclutamiento colonial es específico también, ya que no se presta servicio de armas o servicio en filas, sino más bien se trata de un ejército de reserva o tropa policial para los asuntos de orden público y policía, de la que se encargará la Guardia [Civil] Colonial, utilizándose para su recluta el sistema de reemplazos anuales, aunque con calendarios de actuación diferentes. Los reclutas serán asignados directamente a la Guardia Colonial, recibirán instrucción de uno a tres meses, pasando directamente a la reserva, dependiendo de las distintas Compañías o Secciones de la Guardia Colonial, de acuerdo con su residencia en esos territorios, en la que permanecerán como reservistas, debiendo pasar las revistas anuales obligatorias en los reclutamientos peninsulares.

Desde los años cincuenta, podrán reclutarse los indígenas emancipados, bien como voluntarios o integrados dentro de sus propios reemplazos, generando expedientes similares, aunque también con sus propias peculiaridades, por su condición de indígenas o *españoles de color*.

5 LOS EXPEDIENTES REGLAMENTARIOS DE TROPA DE LA GUARDIA COLONIAL²

Esas peculiaridades de los territorios y de su reclutamiento quedan de manifiesto en la documentación de personal que, consiste básicamente en los dos tipos de expedientes: *reglamentarios de tropa* y *personales de reservistas*.

La serie de expedientes reglamentarios de tropa está formada exclusivamente por los expedientes remitidos desde el Archivo General Militar de Segovia al de Guadalajara el 24 de enero de 1983. La Zona de Movilización de Guinea remitía regularmente esos expedientes al archivo segoviano, de

² AGMG. TEGE, cajas 1 a 41.

acuerdo con las instrucciones circuladas en 1904 a todas las Zonas de Reclutamiento, las cuales debían remitir a Segovia sus expedientes de reservistas, una vez terminada su dependencia del Ejército que se producía con la licencia absoluta.

Sin embargo, pueden encontrarse variaciones en esos expedientes. Los generados por los reclutas residentes en el territorio guineano, reclutados por la propia Guardia Colonial o Territorial, conservan en sus expedientes los diferentes tipos de filiación (de la Junta de Reclutamiento, de la Caja de Recluta y de Cuerpo), así como la toma de razón de las revistas anuales correspondientes. Un segundo tipo de estos expedientes no presenta la filiación de cuerpo, sino que son las propias filiaciones de la Junta de Reclutamiento o de la Caja de Recluta de Santa Isabel las que son utilizadas para anotar las diversas incidencias sobre su incorporación, instrucción, jura de bandera, pase a la reserva y revistas correspondientes.

Un tercer tipo sería el generado por los reservistas que se trasladan a la colonia, por motivos laborales o de misión, y que verán allí continuado su expediente hasta su licencia absoluta. En este caso, sus Zonas de Reclutamiento de origen remitían obligatoriamente esos expedientes a la Zona de Guinea para que fueran allí continuados y cerrados a su licencia absoluta. Un cuarto tipo de expediente, sería el generado por los indígenas emancipados, que se incorporan al reclutamiento desde los años cincuenta.

6 LOS EXPEDIENTES PERSONALES DE RESERVISTAS DE LA GUARDIA COLONIAL³

Los expedientes personales de Guinea llegan a Guadalajara en dos remesas, 1969 y 1983. En la remesa de 1969, estos expedientes personales de reservistas habían llegado enlegajados en agrupaciones independientes, manteniéndose en ambas ordenaciones. Los *expedientes personales de reservistas* que llegaron en 1969 se han mantenido en sus seis ordenaciones originales:

| | |
|-----------------------------------|--|
| RESERVISTAS | cajas 305095 a 305122 y 305128 a 305231 |
| IDEM. TRANSEÚNTES Y TRIPULANTES | cajas 305232 a 305235 |
| IDEM. DEMARCACIONES TERRITORIALES | cajas 305236 a 305240 |
| IDEM. FALLECIDOS | cajas 305241 a 305242 |
| IDEM. DESCONOCIDOS Y EXTRANJEROS | caja 305243 |
| IDEM. TROPA INDÍGENA | caja 305244 |

En la de 1983 llegaron también parte de esos expedientes, aunque en muchos casos unidos a los Expedientes Personales de Tropa. De ahí que en el

³ AGMG. TEGE, cajas 1 a 41 y cajas 47 a 163.

índice puedan aparecer juntos el expediente reglamentario y el de reservista en la misma caja, o en cajas diferentes, de acuerdo con esas remesas

Conservan documentación sobre las incidencias a lo largo de su período como reservista, durante su residencia en esos territorios. Tarjetas de movilización, justificantes de revistas, sanciones por omisión de revistas, propuestas de destino a Cuerpo, licencias absolutas, cartillas, militares no recogidas, declaraciones juradas, instancias, medias filiaciones, fichas de alta y baja de los Registros de Llamada de las distintas Demarcaciones Territoriales, licencias o permisos de salida de los territorios, etc.

Como transeúntes y tripulantes, se considera a los reservistas que figuran embarcados en los barcos que realizan la ruta colonial. Los agrupados por demarcaciones territoriales, corresponden a las Micomeseng, Río Benito, Sevilla de Niefang, Valladolid de los Bimbiles y Ebebiyin. Los reservistas fallecidos, con su propia ordenación, documentan el fallecimiento de los mismos. Los reservistas desconocidos, o sin residencia conocida, y los considerados extranjeros, para aquellos reservistas que fijan su residencia en territorios africanos (Camerún o Gabón) o en otros continentes. Finalmente, los reservistas indígenas, se refieren a los nacidos en Guinea, con documentación similar al resto.

7 OBSERVACIONES AL ÍNDICE

Este IDD, índice alfabético, presenta cuatro campos de información, para la localización de los expedientes pertinentes. El primer campo (Expediente) corresponde a la numeración currens dada a cada uno de los expedientes. El segundo campo (Caja) corresponde a la numeración de la unidad de instalación, y en el tercero, figuran alfabetizados los apellidos y nombres de los reservistas coloniales.

El tercer campo (Reemplazo) corresponde a la fecha de su reemplazo, aunque en este caso hay que hacer notar, que debido a necesidades informáticas, los asientos que figuran como Reemplazo 1900, son debido a que en su expediente no figura ni su fecha de reemplazo ni la de nacimiento, la cual pudiera haber servido para asignarle su reemplazo, de acuerdo con la edad de alistamiento que regulan la legislación de reclutamiento en vigor en cada momento.

El cuarto campo (provincia) se refiere a la provincia de nacimiento de la persona en cuestión, peninsulares, insulares y nacidos en esos territorios, guineanos de color o de padres europeos. En los casos en que este campo permanece vacío, puede ser debido tanto a no figurar la provincia de su nacimiento, como los nacidos en otros territorios o países (protectorado marroquí, América o de otras nacionalidades).

Finalmente, indicar la elaboración de otro IDD, un Inventario⁴ para la totalidad del fondo, abarcando diferentes aspectos sobre los antecedentes históricos de la colonia, su gobierno y administración, los reclutamientos coloniales, así como la elaboración del correspondiente Cuadro de Clasificación, al que se acompaña una explicación detallada de todas las series documentales identificadas, tipos documentales, fechas, extremas, corpus legislativo, etc.
